

New Concept of The Smart Factory at “Vietnam Manufacturing Expo 2018”

The 2018 edition of Vietnam Manufacturing Expo has closed its curtain on August 10, 2018 with over 7,933 industrialists and part makers who came to find the right technologies for their smart factories and utilize them to further upgrade the productivity and capacity of Vietnam’s manufacturing and supporting industries.

According to Capgemini’s Digital Transformation Institute, in the next five years, smart factories may contribute as much as \$500 billion in added value to the global economy. Smart technologies offer a significant competitive advantage for manufacturers, such as increasing output, quality, and consistency, but they’re not easy to implement.

For this reason, this year, from 8 – 10 August, “Vietnam Manufacturing Expo 2018” with over 200 leading brands and experts in the industry from over 20 countries, 4 international pavilions from Japan, Singapore, Thailand and Taiwan, have gather to provide the technologies, solutions as well as the practical experiences about smart factory to support Vietnam manufacturers to overcome early-adoption challenges of Industry 4.0.

At “Vietnam Manufacturing Expo 2018”, special activities with a wealth of knowledge and skill trainings were available. The organizer provided “Shows in Show” activity which is guided tour for all participants to easily access to state-of-the-art technologies, machinery, and solutions whether it be parts, components, inspection, welding, robotic technologies and much more at the exhibition.

“Vietnam Manufacturing Expo 2018” coordinated with local experts and association such as Vietnam Electronic Industries Association (VEIA) and Vietnam-German Technology Transfer and Training Center (HwC) to organize the VME Forum. Many subjects was discussed, such as “Market development and industrial products commercialization in the context of integration”, “Situation and prospects of production and export of electronic products and components in Vietnam”, and many more. Over 300 delegates attended to plan and adapt these new knowledge to benefit their business efficiency in the future.

Next year, Vietnam Manufacturing Expo will take the return from 14 - 16 August, 2019, again at Hanoi International Center For Exhibition (I.C.E). More information can be found at: <https://www.vietnammanufacturingexpo.com/>

After the successful show in Mumbai last year, the annual and the 17th Hand Tools Expo & Fastener Expo, New Delhi, India took place again at Pragati Maidan from August 29 to August 31, which attracted 476 exhibitors from 16 countries (such as Taiwan, France, Germany, India, Italy, Japan, Poland, Romania, Russia, S. Korea, Sweden, Switzerland, the Netherlands, UK, USA, China) to showcase their latest technology and products including hand tools, power tools, pneumatic tools, fasteners, fastening tools, automotive tools, MRO tools, DIY tools, abrasives, gardening tools, safety tools, etc.

Noticing the growing domestic Indian market and significant demand for certain products, Fastener World was also present at this show to do real-time promotion for the products of fasteners, hand tools and many other hardware accessories manufacturers, distributors and traders, taking the lead once again to search for a more diverse range and a more effective way to expand the business reach in emerging markets for customers.

According to the observation of Fastener World’s correspondent onsite, the show this year was bigger in scale than the previous edition at the same place and visiting buyers were mostly local Indian small to medium sized manufacturers, distributors, traders and the purchasing directors from branches of several multinationals in India. Many buyers also showed their high interest in purchasing high quality products supplied by companies appearing in Fastener World Magazine, China Fastener World Magazine, Hardware & Fastener Components Magazine, and Emerging Fastener Markets Magazine. Moreover, many buyers visiting the stand of Fastener World were also very impressed with the high speed of Fastener World’s online B2B buying and selling platform at www.fastener-world.com.tw to locate the most suitable suppliers info, making it much easier for them to look for the most suitable business partners in the shortest time.

“The Indian hand tools & fastener industry has been growing steadily with significant achievements to its credit. The technological advancements should be shared amongst various industries and such focused international B2B event plays an important role in one on one interaction and technology transfer from across the globe,” said Mr. Narinder Bhamra, President of Fastener Manufacturers Association of India (Regd.) Ludhiana.

According to the organizers, the 18th Hand Tools Expo & Fastener Expo will take place again on Sep. 20-22, 2019 at Bombay Exhibition Center.
