10th AUTOMOTIVE WORLD 2018

Automotive World

01/17-19/2018

Automotive World is world's largest exhibition for advanced automotive technologies. 1,140 exhibitors will join the exhibition in 2018 and 40,000 visitors (automakers and Tier 1 suppliers) will come to find suppliers or partners. Having been held for 9 years, this show has established itself as one of the most important business platform in automotive industry.

Automotive Components & Processing Technology Expo (Car-Mecha Japan) is the special exhibition inside Automotive World for mechanical parts and processing technology for automotive industry. Exhibition floor is divided into 6 exhibit areas which are: Fabrication Technology Zone, Mechanical Component Zone, Measuring/Testing Zone, Prototype Manufacturing Zone, Mold & Die Zone and Surface Treatment Zone.

Automotive Lightweight Technology Expo is also held inside Automotive World. The exhibition gathers all kinds of lightweight technologies such as raw materials, processing technologies, design & simulation software, components and modules, and dissimilar material joining technology.

Fastener Fair Mexico

06/20-21/2018

Exhibits: Industrial fasteners and fixings, construction fixings, assembly and installation systems, factory equipment

After three successful editions in Mexico City, Fastener Fair Mexico will move to Guadalajara, looking to better serve the Mexican marketplace in need of industrial fastener and fixing solutions. Fastener Fair Mexico 2018 will be held on June 20-21 at Expo Guadalajara.

According to ProMexico, market opportunities in the State of Jalisco involve major manufacturers in key industries, including: Aerospace, Automotive, Medical Devices, Electrical/Electronics, Household Appliances, Infrastructure/ Construction, IT and Mining.

"We produce Fastener Fair in seven countries and this will be the first time we bring this event to Guadalajara, a city full of opportunities," said Melissa Magestro, Executive VP of Mack Brooks Exhibitions Inc., organizer of the event. "We are expecting to attract over 2000 industrial fastener buyers, engineers and distributors. It is a great opportunity to connect with fastener buyers and distributors at Latin America's only dedicated industrial fastener exhibition."

Fastener Fair Mexico 2017 was attended by over 2,225 top decision-makers from Mexican manufacturing industries such as automotive, aerospace, construction, mechanical, and consumer electronics along with fastener distributors and wholesalers.

Fastener Fair USA

04/11-12/2018

Exhibits: Industrial fasteners and fixings, construction fixings, assembly and installation systems, factory equipment

Excitement is building for Fastener Fair USA 2018, America's Exhibition for the Fastener and Fixing Industry. The inaugural show will take place April 11-12, 2018 at the Huntington Convention Center in Cleveland, Ohio.

Fastener Fair USA is the premier event bringing together manufacturers, distributors, suppliers and end users in this focused fastener and joining technology exhibition. The show offers a first-hand look at the latest solutions and technology available in the marketplace, networking, and top-notch educational programs developed and delivered by industry experts.

Fastener Fair USA 2018 anticipates being the meeting place for fastener professionals, mechanical engineers, product designers, purchasers and R&D personnel, from a variety of industries. So far, feedback shows potential attendees are excited about these show features.

Why Attend?

- The Latest Technology & Solutions All in One Place
- Convenient Location
- Educational Sessions
- Networking

Fastener Fair India

05/18-19/2018

Exhibits: Industrial fasteners and fixings, construction fixings, assembly and installation systems, factory equipment

Following the success of Fastener Fair India 2017, the organisers have announced that Fastener Fair India will return to New Delhi in 2018. India's capital city will host Fastener Fair India for the second time. The exhibition takes place from 18-19 May 2018 at the Pragati Maidan Exhibition Centre in New Delhi.

New Delhi provides an exciting location for the event, one just as vibrant as Mumbai. As India's capital city, New Delhi is one of the fastest growing cities in the world, with high cultural, political and commercial importance. Furthermore, many international companies have established themselves in the

region, encouraged by the positive business sentiment, resulting from increased political confidence. The Delhi region also acts as a hub for the automotive industry. New Delhi will also draw a new set of visitors, attracting buyers and distributors from this region.

The fourth edition of Fastener Fair India held in Mumbai, took place from 28-29 April 2017 at the Bombay Exhibition Centre. The exhibition attracted 3,632 Indian and international visitors and 186 exhibiting companies were present at the two-day event.

The 19th China (Guangzhou) Int'l Fastener, Spring & Equipment Exhibition

06/06-08/2018

The annual China (Guangzhou) Int'l Fasteners, Spring & Equipment Exhibition is an event with unlimited business opportunities

and is also an event interesting to several industry professionals. This Exhibition continues to be the best choice for industrial development and has been consecutively held for 17 years. With a wealth of resources and experience, this Exhibition did help many enterprises get many orders on-site.

The 19th edition will be held on June 6-8, 2018 at Hall C of China Import & Export Complex in Pazhou, Guangzhou. Exhibits include fasteners, accessories and connecting parts, fastener making equipment, materials for fasteners, fastening tools, fixing systems, testing devices, springs, materials for springs, equipment for springs, inspection machines, various parts and related technology. According to the organizers, the registration is now open and many companies have already booked their stands and will demonstrate their products and facilities on-site.

It is expected that the Exhibition in 2018 will once again generate unlimited business opportunities.

Fastener Expo Shanghai

06/20-22/2018

Exhibits: Fastener manufacturing equipment, fastener materials, molds and consumables, testing equipment, packaging equipment and other related production technology

The Shanghai Greater Hongqiao Area is destined to become the focus of the fastener industry in China and even the world in June, 2018. After 8 years of unremitting efforts, Fastener Expo Shanghai 2018 has been successfully created as one of the global fastener platforms. According to the organizer, "The scale of expo and the number of exhibitors are the core competitiveness that attracts nearly 25,000 visitors from 80 countries and regions at home and abroad. This core competitiveness is the solid foundation for the success of the Expo since its establishment, and it is also driven by purchasing demands of many domestic and foreign buyers visiting the Expo".

It is expected that the size of the Expo, one of the 3 largest fastener shows in the world, will hit a new record high. The Expo will also attract the participation of about 100 overseas brands from 14 countries and regions. For example, the fastener production enterprises: Japanese socket center, American ND, French Gardette, German Inovan; moreover, the fastener production equipment enterprises: German Wafios, British Aerospace, Italian Sacma, Japanese Asahi Sunac, etc. The Expo is really a global brand event, and will bring more diverse and international trade choices to visitors. And it is also convenient for domestic fastener enterprises to get to know the advanced technologies and products of fasteners in the world.

With Good Expectation to Chinese Fastener Industry, Hannover Milano Fairs China Ltd Joins with CMCA to Hold IFS China

Hannover Milano Fairs China Ltd has recently announced the cooperation with CMCA and CMCA's Fastener Subdivision to hold International Fastener Show China ("IFS China") in 2018 and support it to become the largest and most influential trade event in China and Asia as well as facilitate the development of the fastener industry and trade among industries.

Fasteners, the most widely used mechanical components, play a critical role in energy, automotive, aerospace, vessel, petrochemical, equipment manufacturing, machine processing, electronics/electrics and infrastructure applications. The diverse range of specifications and applications has boosted the continuous development in quality, technology and innovation of fasteners. According to an industrial report, the fastener export volume of China in 2016 rose by 1.04% to 2.7687 million tons (totaling US\$ 4.722 billion) compared to the same period last year. At the same time, the fastener import volume and value in 2016 respectively demonstrated a 6.37% increase and a 2.36% increase to 0.3055 million tons and US\$ 3.124 billion.

CMCA Executive Vice President Wang, Chan-Ming said, boosted by the domestic and global economic development, Chinese fastener industry continues to grow steadily and its production reaches around 40% of the global total, making it one of the major fastener manufacturing countries in the world.

CMCA Fastener Subdivision President Xue, Kang-Sheng said, "With the initiatives of Made-in-China 2025 and the Way to Achieving New Industrialization, the critical fastener

industry will definitely get more significant innovation-driven upgrade and advancement." In this procedure, the development of fasteners will also appear new features. President Xue added, "These 5 features are: 1. Innovation drives enterprises to carry out strategic transformation and development; 2. The fastener industry is going toward intelligent manufacturing; 3. There is new progress in IoT application; 4. The fastener industry is focusing more on green manufacturing; 5. Enterprises are focusing more on quality control and brand establishment."

In the era that every industry is trying to achieve structural reform, the fastener industry will also go further to make improvement and increase its quality and efficiency. President Liu, Gwo-Liang of Hannover Milano Fairs China Ltd said, "The reasons that we chose to cooperate with two major industry leading organizations include the good expectation to the development of the fastener industry and the intention to promote the brand awareness and internationalization of fastener fairs and satisfy market demand. Only the fair meeting market demand could be favorable to the industrial development. In the future, Hannover Milano Fairs China Ltd will bring new innovative ideas to fastener fairs and make the most of IoT technology to continuously increase the scale and level of fair, creating an internationally well-known and must-attend annual trade event."

IFS China is slated to be held on Oct 21-23, 2018 at SWEECC. With the total exhibition floor plan of 34,000 sq. m, the show is expected to attract more than 700 domestic and foreign exhibitors. Fastener molds, dies, consumables, design, technology and service, standard fasteners, specialty fasteners, stamped parts, machined parts and fastener materials will be mainly exhibited at Halls 2 & 3. The show will be concurrently held with other high end events, such as social events among Asian, European and N. American organizations, which will create a platform for industrial exchange among domestic and foreign companies. This will be a show particularly held for the fastener industry.

International Fastener Show China 2018 is organized by CMCA, CMCA's Fastener Subdivision and Hannover Messe, and is operated by Hannover Milano Fairs Shanghai Ltd and Shanghai Afastener Exhibition Co., Ltd.

Fastener Fair Turkey

03/01-03/2018

Exhibits: Industrial fasteners and fixings, construction fixings, assembly and installation systems, factory equipment

Fastener Fair Turkey, the leading trade fair within the fastener and fixings industry, will be gathering industry experts together in Turkey for this dedicated event. This fourth edition will for the first time host the entire sector over three days including Saturday.

Join the industry on March 1-3, 2018 to welcome many relevant and active buyers, wholesalers/resellers and distributors in

sectors such as Automotive, Furniture manufacturing - Energy and Power Generation, Marine, Leisure and Commercial, Construction and Civil Engineering, Communications Technology, General Engineering, Sanitary Ware and Plumbing - Electronic and Electrical Goods, Aerospace, HVAC Manufacture and Installation.

98% of stand space in the first hall has already been sold. Additionally, the second hall is now open to new companies keen to guarantee their presence.

More names have been added to the list of exhibitors for Fastener Fair Turkey 2018; while many companies who at this event have already booked their stand space, many others are participating for the first time.

Saudi Fasteners & Tools Expo

04/29-05/02/2018

Saudi Fasteners & Tools Expo will be held during 29 April – 2

May 2018 at Riyadh International Exhibition Centre in Saudi Arabia. It is exclusively dedicated exhibition to fasteners, fixing technologies and industrial tools. The displayed products include standard fasteners, commercial fasteners, construction fixings, industry specific fasteners (fasteners for heavy engineering, buildings, automotive, woodworking, rail transit, electronic and electrical products, motorcycles, aerospace, new energy, etc.), assembly and installation systems, stampings, and non-standard fasteners, hand tools, power tools, industrial tools to fully meet different demands of downstream industries.

Saudi Fasteners & Tools Expo 2018 will gather a powerful mix of top distributors, suppliers, manufacturers, agents and professionals from across Saudi Arabia, the region and worldwide. It will constitute the most comprehensive gathering of key players under one roof.

Saudi Fasteners & Tools Expo together with its world-class co-located shows is the definitive showcase for the full spectrum of manufacturing and fabricating industry. It is a part of mega industrial show "Saudi Industrial Show" and co-located with 4 specialized events, providing maximized business opportunities for industry professionals: FABEX Saudi Arabia Exhibition, Saudi Welding & Cutting Expo, Metal & Steel Saudi Arabia Exhibition and Saudi Woodworking Show.

金聖精密股份有限公司
JS GLOBAL LIMITED

We're JS GLOBAL LIMITED certified with ISO 9001:2008 for automobile parts, specializing in stamping and machine milling for over 20 years.

We could not only offer you the in-house progressive die & fine blanking, but also have the ability of prototype tooling and over molding according to customers' design. Our customized service covers the complete processed production, including through stamping, heat treatment, vibration, blasting, plating, sorting before packaging, and delivery on time with good quality.
