# Fastener World's Global Exhibition Calendar in 2020

compiled by Fastener World

**Fastener Fair  
New Delhi  
09/04-05**

## Venue:

**Pragati Maidan Exhibition Centre**

**Fastener World at A42**

**Taiwan sales agent:**

**Fastener World**

Fastener Fair India returns to New Delhi.

India's capital city hosts the nation's premier, international event for Fastener and Fixing Technology, in 2020.

Building on the success of five editions in Mumbai and two in New Delhi, Fastener Fair India returns to the Pragati Maidan Exhibition Centre from 4-5 September 2020. The exhibition provides excellent networking opportunities to all industry professionals, including distributors, suppliers and engineers. India is one of the fastest growing economies on the planet and home to many major fastener markets including automotive, telecoms, energy, rail, domestic appliances and construction. This economic growth is set to drive domestic and international investments in the Indian fastener market.

Delhi is the largest commercial centre in northern India and many multinational companies have already established themselves within the region. The region also acts as a hub for the automobile industry. Many major automobile companies have established manufacturing centres in the region, such as Hero MotoCorp, India Yamaha Motor Private Limited and Maruti Suzuki, one of the oldest passenger car makers in India. Founded at the heart of New Delhi, the Pragati Maidan Exhibition Centre is a world-class venue, which hosts a variety of prestigious national and international exhibitions.

The seventh edition of Fastener Fair India was held in Mumbai from 25-26 April 2019, at the Bombay Exhibition Centre. The two-day event hosted 199 exhibitors. The majority of exhibitors were India-based companies. However, many exhibitors were non-domestic, namely from China, Taiwan, Germany, South Korea, USA and Singapore.

A highly qualified audience of 5,192 was on hand to view a comprehensive range of industrial fasteners and fixings, assembly and installation systems, storage and logistics services, fastener manufacturing technology and construction fixings.

The specialised exhibition for the fastener and fixing industry attracted visitors from many key industry sectors, including mechanical engineering, automotive industry and hardware retailing. Distributors, wholesalers and retailers were also in attendance. These visitors echoed the current economic trend in India: Forecasts indicate that, as a growing economy, India has huge potential for international businesses from around the world. The overwhelming number of visitors at the exhibition entrances ensured exhibitors were delighted with the business they did from start to finish.

As in previous years, Fastener Fair India 2019 was co-located with BLECH India 2019. India's premier exhibition for Sheet Metal Working attracted 159 exhibitors from 15 countries, with 5,017 trade visitors.

Sales for Fastener Fair India 2020 have been strong, alongside the prospect of the largest ever Fastener Fair event in New Delhi. Exhibition Manager, Martin Clarke, comments 'companies from both India and the wider world have recognised Fastener Fair India as a must-attend event for the industry. India's buoyant economy mirrors the exhibition's progress, with the show growing year on year.'

With less than six months to go until the exhibition opens its doors, there is no better time to plan your visit to Fastener Fair India 2020. Contact the Fastener Fair India Team now to discuss opportunities for your company. Further details can be found on the Fastener Fair India 2020 website (<https://www.fastenerfair.com/india/delhi/english/>).

Fastener Fair India also takes place in Mumbai and returns to the Bombay Exhibition Centre for the sixth time in April 2021. Further information about Fastener Fair India 2021 is available on request, from the organiser.

SG carbide die capabilities serve four major sections: hand tools section, auto tooling section, aerospace section, and defense tooling industry. We are especially a licensed supplier in this field." 		

**SUBCON  
Thailand**  
**05/13-16**

Your Global Sourcing Destination!

Thailand offers an excellent support industry, strong infrastructure and a strategic location at the crossroads of Southeast Asia, China, and India. Thailand is known as a regional industrial part manufacturing hub with investors and buyers seeking business partnerships and sourcing parts in the Kingdom. Today, SUBCON Thailand is ASEAN's leading international industrial part-sourcing and business-matching event and the show presents a regional business platform for industrial part-makers and international buyers from Tier 1 and Tier 2 around the world.

After more than 13 years, SUBCON Thailand has become the center for major parts purchasing along with sourcing excellence. It now offers sourcing opportunities with over 400 industrial part-manufacturers from Thailand, ASEAN, Japanese manufacturers and more. The event will feature industries such as automotive, electronics, machinery, and future industries like aviation, medical equipment, robotics, automation and digital. The 2020 show will also be packed with activities such as industrial showcases, seminars, workshops and business matching programs. SUBCON Thailand 2020 is projected to be attended by over 25,000 buyers and trade visitors from 14 countries.

**Venue: BITEC**

#### FEATURED HIGHLIGHTS FOR 2020 ...

- Over 400 quality industrial part manufacturers from 15 countries
- Top Pavilions from Taiwan, Korea, Japan and the Thai Subcontracting Promotion Association
- Buyer's Village - the largest in ASEAN where many of the world's leading part buyers are located.
- A showcase of technologies and innovations on rail systems, national defense industry and aviation support the industry.
- Business matching and business linkage with leading industrial part- buyers from 15 countries.
- Over 50 seminars that enhance knowledge for future industries, such as the next generation automotive industry, medical device industry and aviation support industry.

The show's Business-Matching Program is exclusively for exhibitors of SUBCON Thailand and registered industrial part-buyers.

It is the only official business-matching event organized by the BOI Unit for Industrial Linkage Development (BUILD). The Program will provide industrial part-buyers with the opportunity to meet over 400 top quality industrial part-makers. The business includes industries such as; Automotive, Construction, Mold and Die, Mechanical, Electrical Appliance and the booming Electronics industry. Industrial components such as metals, fasteners, plastics, and rubber parts are available for possible part-sourcing. The program is particularly ideal for Tier 1 and 2. The Business Matchmaking Program already has a proven record of success. Over the years, matching activities at SUBCON THAILAND have generated more than 60.5 billion Baht in transactions and over 28,000 business partnerships have been created via the program.

## Fastener Fair USA

05/19-20

**Venue:**  
the Charlotte Convention  
Center  
**Taiwan sales agent:**  
United Expo

The show is unique in the industry, offering an unrivaled opportunity for the entire supply chain – manufacturers, master distributors, equipment makers, processors, packagers and end users – to meet, collaborate and network.

The 2020 Fastener Fair USA will tap into its location in Charlotte as a gathering point for fastener business strategists and technology experts. North Carolina is a hotbed of aerospace, automotive and furniture manufacturing, providing one of the country's greatest concentration of fastener buyers and end users.

### All Day Conference & Plant Tour

This year's event kicks off May 18, with a full-day, pre-show conference program. Fastener Fair USA's strategic partners at the Fastener Training Institute (FTI) and the Mid-West Fasteners Association (MDFA) were instrumental in developing the program.

Starting with an opening keynote on Industry 4.0 by factory automation expert Georg Frey, president of Lignum Consulting, the conference then splits into three-track:

- Fasteners 101 presented by the Fastener Training Institute
- Tom Reilly Training: Value Added Selling presented by the Mid-West Fasteners Association
- Fasteners in the Smart Factory presented by Fastener Fair USA

### Keynote Kicks Off 2-Day Exhibition

Fastener Fair USA's Expo runs May 19 and 20, opening at 10:00AM daily, and showcasing all major product lines and industry categories in the fastener and fixing sectors. To set the tone for the event, a 9:00AM general session titled, "Impact of Industry 4.0 on Fastener Firms," will be presented by Yannick Shilly of Altix Consulting.

Fastener Fair USA is designed to offer something for the entire fastener industry supply chain. This year's show theme, "For all the industry, in the heart of manufacturing," reflects Fastener Fair USA's expanding mission to serve all industry segments that involve fasteners while bringing them together in one of the United States' fastest growing manufacturing regions.

Two days of free, on-the-expo-floor Industry Education Stage presentations will underscore this direction, with more than a dozen presenters examining everything from Blind Rivet Bolts, Import & Export Strategies, Smart Tools & Fasteners, to 3D Metal Printing.

### Town Halls on Tariffs, Workforce

Each day, the Industry Education Stage will conclude with an open forum style presentation and Q&A on two of the most pressing issues for the fastener industry: Tariffs - Where We Stand by legal expert Richard Wortman, Esq.; and Workforce Strategies, with a panel presentation by industry leaders from the Fastener Fair USA Advisory Board.

Also taking place at the Industry Education Stage will be an ongoing resource for fastener business managers: on May 19 the Industrial Fasteners Institute and the Fastener Training Institute will present ASK THE EXPERTS. Specialists in a variety of aspects of the fastener and fixing business will field questions from the audience, beginning at the stage, then continuing from an adjacent ASK THE EXPERTS Booth #1237 for the duration of the show.

**Fastener Fair  
Mexico  
06/24-25**

**Venue: Centro Citibanamex  
Fastener World at 523  
Taiwan sales agent:  
Fastener World**

Fastener Fair Mexico 2020, the only exhibition for the fastener and fixing industry in Latin America, will take place from 24 – 25 June 2020 at the venue Centro Citibanamex in Mexico City, with +3,500 sqm of exhibition space. Reed Exhibitions, world leading event organizer with more than 500 shows in 30 countries, across 43 industries, organize it.

Around 100 companies from different countries secured their stand at the 6th International Exhibition for the Fastener and Fixing Industry as Germany, Belgium, Spain, United States. Asian exhibitors mainly come from China, India, Taiwan and Turkey.

The automotive and manufacturing industries represent a primary part of the GDP of different regions of the country, highlighting the central, “bajío” and north regions, where most of the investments are generated by these industries.

Products offer based on the demand that Mexico market requests:

- Industrial fasteners and fixings
- Construction fixings
- Assembly and installation systems
- Fastener manufacturing technology
- Storage, distribution, factory equipment
- Information, communication and services

Committed to improving the B2B business platform in the 6th edition, we have three new areas launches to get better the experience in the event as to do business or find the products, services or the specific exhibitors.

**1. Club Elite Progam**

It is a select group of top buyers with high decision and purchase power. Guests of Elite Club receive exclusive treatment, a personalized agenda, recommendations and special activities.

- Decide who you meet: Be sure to spend your valuable time right with the right business partners to ensure your future business success.
- Contact your prospects: We bring the customers that interest you.
- Maximize your ROI: Efficiently attracting potential and new customers.

**2. Matchmaking Program**

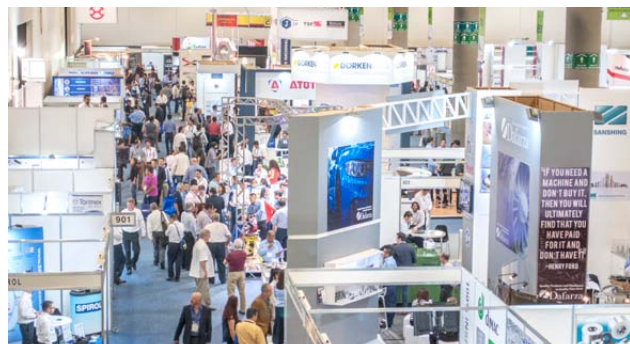

We managed to advise buyers and exhibitors before and during the event to maximize their time during the exhibition.

- Expand your exposure: We offer recommendations to visitors weeks before the event of exhibitors according to their interest.
- Creating connections: We advise buyers in the show looking for products based on categories offered by each exhibitor.
- Same opportunities: Take the opportunity to be found by potential customers.

**3. Conferences Zone**

Knowledge program and the space has been improved to offer the best quality that attendees deserve.

- Renewed Space: More friendly and comfortable space to improve the experience of the attendees.
- New speakers: National and international keynotes covering topics as economy, foreign trade and fastener industry.

*Fastener Fair  
Thailand*  
**06/24-27**

**Venue: BITEC**  
**Taiwan sales agent:**  
**Fastener World**

Fastener Fair Thailand 2020 covers the complete spectrum of fastener and fixing technology; industrial fasteners and fixings, construction fixings, assembly and installation systems and fastener manufacturing technology. Visitors to the show are distributors, suppliers, engineers and other industry experts from a variety of sectors. Also incorporating with “Manufacturing Expo,” this exhibition grandeur will offer all-faceted dimensions of innovative machinery, state-of-the-art technologies and comprehensive services for all manufacturing sectors, making this event the real mid-year business platform where world’s famous brands and a wide variety of quality buyers from the ASEAN market will meet and make good deals here. Fasten your current market opportunities to cutting-edge technology upgrades for your next business success at the ‘Fasteners and Fixings’ show in Thailand.

As a part of Manufacturing Expo 2020-ASEAN’s Leading Machinery and Technology Event for Manufacturing and Supporting Industries, joining us as exhibitor will enable you to reach out to over 100,000 industrialists who could become your future trade partners!

Fixings and fasteners continue to receive a huge demand, and Thailand is recognized as the region’s largest exporter with an estimated demand to grow by 37% over the year 2015-2025.

Fastener Thailand exhibit profile are focused on Industrial Fasteners and Fixings, Construction Fixings, Assembly and Installation Systems, Fastener Manufacturing Technology, Storage, Distribution, Factory Equipment for Automotive, Aerospace, Electronic and Electrical Goods, Construction, General Engineering, HVAC, Air Conditioning, Energy and Power Generation, Metal Products, Furniture Manufacturing, Sanitary Ware and Plumbing, Installation Development, etc.

This is the high time to step up your level of success. Don’t miss it!

*Fastener  
Poland*  
**11/24-25**

**Venue:**  
**International Exhibition and Convention Centre EXPO  
Krakow**  
**Taiwan sales agent:**  
**Fastener World**

The International Trade Fair for Fasteners and Fixing Technology FASTENER POLAND® will be held for the fourth time on 24th-25th November at the EXPO Krakow. The exhibitors and visitors will have opportunity to present their offer, target potential business partners, initiate cross-border contacts and long-lasting co-operations. Trade show will be accompanied by interesting seminars, workshops and conferences, including the Fasteners Forum, Career and Agent Area.

The trade fair attracts more and more interest every year. Last year edition, 43% of all visitors came from abroad to look for new suppliers in Kraków. This huge potential is increasingly recognized by domestic exhibitors, who have good reason to feel glad today. Only in 2018, domestic exports of fastening elements increased by 19% to a level of PLN 1.8 billion (around 455.4 million USD), the fastest growth rate in 8 years.

Over two days, 210 exhibitors showcased their portfolios. Importantly, as many as 71% had come from abroad, from countries such as Austria, China, Czech Republic, France, Spain, the Netherlands, Japan, Slovenia, Sweden, Taiwan, Turkey, the USA, Great Britain and Italy. "Competition in the market is quite fierce and companies well know that they can't afford to stop looking for customers. The FASTENER POLAND® Trade Fair attracted 4,000 industry guests. That's 4,000 potential contractors", sums up Beata ŁOŚ, Project Manager.

The fourth edition the organizers announce is even bigger. Everyone interested can register online by November 20th and be rewarded with the receipt of a free admission ticket - more information at [www.fastenerpoland.pl](http://www.fastenerpoland.pl)

*Vietnam  
Manufacturing Expo*  
**08/12-14**

**Venue: I.C.E. Hanoi**

Eager to be the market leader for running the factory of the future? Vietnam Manufacturing Expo 2020 will open your door to the largest machinery and supporting industry “face-to-face” event in Vietnam where your business will be taken care by various exclusive activities under Marketing Campaigns, Business Matchmaking Service, and Networking forums.

Make a move to improve your business at VME 2020 during 12-14 August 2020 at I.C.E (Cung Van Hoa) 91 Tran Hung Dao, Hanoi, Vietnam.

With the Rise of 5G in Manufacturing and Supporting Industry together with the 5G technology, the theme of Smart Manufacturing is widely welcomed by not only the professionals in the industrial field but also the business leaders that want to utilize all resources. When the Internet of Things (IoT) supports for the effective connection of equipment’s, the production line will become more easy-to-control from a remote area that helps maximize the human touch engagement at works.

To discover all the updated solutions from Machinery Tools, Automation Technologies, Industrial Robots. Let’s come to see at VME 2020 and enjoy the show with new concept about the AoT (Automation of Things).

FACTORY LOGISTIX 2020 – The International Exhibition on Factory Logistics and Warehousing Technology in Vietnam, first time organized by Reed Tradex, is expected to bring up supporting technologies and tools for upgrading factory to reach global standards, and meet the demand of a smart factory, including Assembly Automation, Pump & Valve, Material Handling, Electric and Lighting, Environmental Management, Factory Security & IT and Construction & Maintenance Solutions,...

The warehouse meet-up event will be a one in a millions destination to offer Vietnam manufacturers 4.0 weapons for grabbing all business potential. Co-located with Vietnam Manufacturing Expo 2020 – the Vietnam’s Leading Exhibition on Machinery and Technology for Manufacturing and Supporting Industries, FACTORY LOGISTIX 2020 will provide industrialists and business owners the new faces of modern manufacturing and a glance of how factory of the future looks like.

Taiwan International  
Fastener Show

10/14-16

Venue:

Kaohsiung Exhibition Center  
Fastener World at: N1307a

The scale of the world's third largest and Asia's second largest Taiwan International Fastener Show 2020 has reached a new high. Currently, more than 420 manufacturers will use nearly 1,200 booths. In addition to extending the exhibition area to the conference rooms and corridors on the third floor, an outdoor exhibition area has been planned for the first time. Various fasteners, screws, nuts, production equipment, fastener tools, molds, testing equipment and wire-related products and services will be exhibited. Interested vendors are welcome to visit and register in advance.

The last exhibition attracted 2,193 international buyers from 73 countries, which is 10% higher than the previous exhibition. The number of domestic and foreign visitors exceeded 30,000. In 2020, fastener companies from Germany, Belgium, Spain, Singapore and Hong Kong have registered for the exhibition. The degree of internationalization will increase.

In addition to the exchanges during the exhibition, the Global Fastener Summit is also an important platform for exchange between attendees. This year will focus on the development and innovation of fastener products, explore the application of fasteners in the automotive, aerospace, and medical industries, and invite global industry leaders to come to Taiwan to promote the industry. Furthermore, during the exhibition, one-on-one procurement meetings and overseas talent matchmaking meetings will be held to strengthen cooperation opportunities and become more competitive globally.
