

Welcome to Visit Taiwan Pavilion at

Fastener Expo Shanghai 2016

by Konnor Lee, Fastener World

Fastener Expo Shanghai 2016 is scheduled to take place at Shanghai World Expo Exhibition & Convention Center on June 25-27.

Since its 1st edition held in 2010, the number of exhibitors and the venue area of this Expo have been increasing year after year. As a result, in order to accommodate more exhibitors, the

Expo in 2016 will add Hall 1 and Hall 2, making the

total exhibiting area at 42 thousand square meters (up 24% from last edition's record) and the total number of exhibitors at 750 (about 2,000 stands). Fastener Expo Shanghai is not only the largest trade show in China dedicated to fasteners, but also one of the most well-known fastener events around the world. Many foreign companies with great interest in developing the Chinese market have confirmed their exhibiting application. These companies are 20 exhibitors from Taiwan, 12 from S. Korea, 9 from Japan, and about 35 from other countries. The total number of foreign exhibitors this year is expected to reach 100. This Expo has become the largest and the most market-leading fastener expo in Asia. Let's expect to see another successful result of this Expo in 2016.

"Yih Troun, abbreviated as Y.T. was established in 1977 in Taiwan as a global frontier in the concept of manufacturing INDEXABLE HIGH FEED CUTTER and INDEXABLE TAP. It is the one and only company in Taiwan to manufacture indexable shank holder together with unique core technology for carbide insert sintering and grinding. Its huge investment in R&D, vertical integration manufacturing with brand marketing has enabled full-range solutions to its customer across the world.

Developing highly efficient indexable tools is our main belief. Right from the outset, our company is furnished with sophisticated R&D and production team, earnestly focusing on exclusive insert design and quality control. The ultimate goal is to improve productivity, reduce cost and enhance customer satisfaction in manufacturing. There is an annual increase of at least 2~3 new patented products to keep up with the pace of market demand and thrive for the competitiveness of core product design. Yih Troun has received highest accolades for its professional indexable type inserts with several awards, such as (a) 2007 Taiwan Top 100 Enterprise Award, (b) 2008 Taiwan Government Special Advisory for Factories, (c) 2010 Ringier Metal Industry Innovation Award, (d) 2013 Honorary member of Taiwan Machinery Association, (e) 2014 Special invitation in "Emerging Industry Incubation".
