

Fastener World in 1990

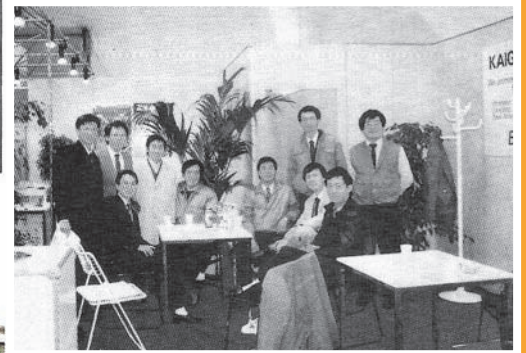

Now we are going to take you back to 1990 when Wire Dusseldorf started to provide professional service to the industries. Even crossing the 20th Century to the 21st, this show continues to be very popular and is a leading show for the fastener industry.

The venue of Wire '90

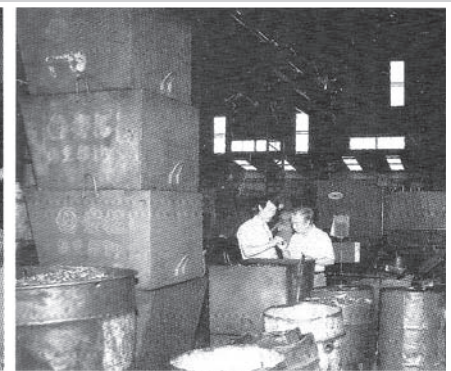

Group picture in front of Bossard

Germany was at that time a dream market for Taiwanese fastener industry. As a result, to make this dream come true, president William Liao of Fastener World Inc. organized a delegation to Germany to participate at Wire Düsseldorf and they also visited Belgium, Netherlands, Germany, Switzerland, and other manufacturing factories such as Nedschroef and Bossard. More than 20 brave people as a group went together to try to find a new way for the export of Taiwanese fasteners. It was absolutely an achievement at that time!

Anchor Fasteners Industrial Co., Ltd has successfully transformed and developed dental implant. Anchor T. H. Chang is the company's founder and chairman of Taiwan Industrial Fasteners Institute. He accompanied the former chairman of TIFI, Mr. Pam, in a production tour. This is an impressive historic moment in generation succession.

A VISIT TO RODEX FASTENER THAILAND CORPORATION

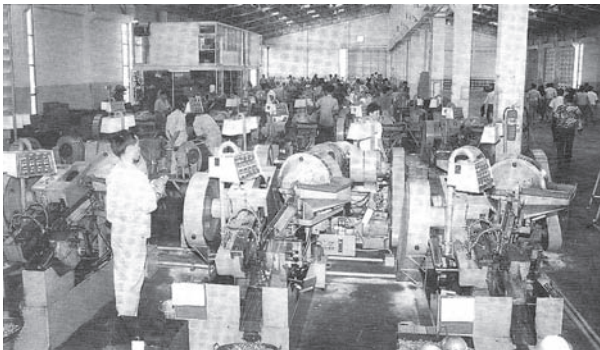

— A Talk on The Aggressive Growth of Thailand's Economy —

Speaker: Mr. Wang,
General Manager of Rodex

Visit to Rodex Fastener Thailand Corporation

Contrary to the west-bound investment trend, Rodex and Tycoons were the only two Taiwanese companies going southwards and invested in factories in Thailand. In 1989 Rodex completed the Thailand plant and in 1990 invited other companies in the industry for a tour.

Wang led a company tour. Starting from left are William Liao of Fastener World Inc., Wang of Rodex, and Su of Thread Industrial with his wife.
