Taiwan Industrial Fasteners Institute (TIFI)

Tel +886-2-25060918 Fax +886-2-25072429
tifi@fasteners.org.tw www.fasteners.org.tw

Founded in 1969, Taiwan Industrial Fasteners Institute (TIFI) aims at promoting its members and Taiwanese fasteners in the international market. Currently, TIFI has almost 700 members, mostly leading fastener and fastener-related businesses and manufacturers in Taiwan. TIFI's publication - the "Taiwan Fastener" buyer's guide, a semi-annual edition, is the "must-read" buyer's guide for every business or buyer sourcing from Taiwan. Please visit TIFI at booth number 422 at Fastener Fair Mexico 2017 and stop by our booth for your free copy of the latest 2017 Taiwan Fastener buyer's guide.

Accurtek Products Corp. supplies special fasteners to the automotive industry.

1. In-house production: 9 sets of four-die four-blow bolt forming machines with size M5 up to M14.
2. Cooperating with more than 80 vendors (mainly certified to TS 16949) to supply special bolts and nuts to tier 2 or 3 distributors in North America and Europe.
3. Well trained sales engineers offering expertise to customers and manufacturers.
4. Complete collection of standards of various car companies in our computer system to well understand customers' requirements and translate into correct information to manufacturers.

5. Capable of supplying licensed items: Delta PT, MATHread, Torx, Torx Plus, Taptite and Plastite, etc.
6. Besides cold forming items, we also supply a wide range of products made by screw machining, stamping and injection, etc.
7. With in-house optical sorting machines, plus subcontracting jobs to outside sorting centers, our quality level is offered at 25 / 50 ppm subject to customer requirements.
8. PPAP documents and IMDS submitted upon request.

We realize there are many car companies building up assembly lines in Mexico, and we hope our fasteners and service could be introduced into this market after exhibition at Fastener Fair Mexico 2017. Definitely, our experience as well as in-time and correct daily response could help customers facilitate business in the domestic market. Stop by our booth during the fastener show and don't miss out on the win-win opportunity.

Filrox Industrial Co., Ltd.

Filrox Industrial Co., Ltd, founded in 1975 and located in central Taiwan with forty years of experience and profession, has been supplying all kinds of fasteners throughout the world. Our product range includes automotive, industrial, machinery, construction and special parts according to drawings as well as commercial applications. The company is accredited to ISO 9001:2008 and TS 16949:2009 TÜV CERT. Our continuous R&D program and quality assurance allow the company to win customers' trust worldwide.

We are specialized in making rivet nuts, insert nuts and internally threaded nuts with thread sizes from M3 to M12 made of iron, aluminum, brass and stainless steel, and the product quality of rivet nuts is as high as the standard of AVK or Böllhoff. We are able to supply LEVEL 3 PPAP documents, IMDS for automotive parts upon request. Our main facilities are cold forming machines and the manufacturing department uses the most precise and advanced high-tech multi-process cold heading equipment, from 1-die-2-blow to 6-die-6-blow, including bolts forming machines, screw heading machine, parts forming machines, and blind rivet assembly machines. We have fully automatic thread tapping machines for all kinds of inserts nuts.

The inspection instruments for testing and quality control include tensile strength testing machines, torque wrenches, plating thickness inspection machines,

optical comparator instant measurement systems, projectors, 2.5D optical measuring and sorting inspection machine with 4 cameras. QC engineers examine the full sizes by the sorting machine to meet customer's ppm request.

Filrox is a professional manufacturer of screws, rivets, blind rivets, blind rivet nuts, blind rivet studs, turned parts and related parts. Manufacturing metal fasteners has been our profession for forty years. We always believe that our corporate principle - "Practicality, Responsiveness, and Never-Ending Improvement for Customers" would enable us to earn your support and cooperation together. Providing our customers with the best service by incorporating customers' specific needs is strongly followed in the company for establishing and maintaining long-term buyer/seller relationships.

Sintec is an R&D-driven company, coordinating with major branded partners worldwide in advanced construction parts. In the past decades, we've successfully launched many new parts in Japan, UK and Europe. Concrete bolts are one of them. With unique and patented thread design, our concrete bolt needs less driving torque and has excellent pull-out performance.

To match various applications in construction, we develop different types of products covering all possible usages. We also own many special patented wood screws at competitive cost and with world class

performance. Therefore, we can help branded customers develop unique product range to outstand in marketing. A professional R&D team with full testing facilities enables our production to keep consistent quality control. SINTEC obtained ISO 9001:2008 certification for its quality management system to increase production efficiency and quality. By participating in this Fastener Fair, we hope that we will not only develop new customers, but also promote our products all over the world. By communicating with customers, we can provide better and correct products for customers.
