

Statistics and Trend Analysis of Russia's Fastener Import and Export in 2018

by Sharareh Shahidi Hamedani

Introduction

Russia's export to the world is about 94.407 million USD and its imported fastener value is more than 855.206 million USD. The ratio of Russia's exported fastener value to its imported fastener value is 0.11; Therefore, it is very clear that Russia is a dependent country in the fastener field.

This article is a study about the main partners of Russia in both sectors, which are import and export.

Export

The following graph shows the trend of exported fasteners from Russia to the world.

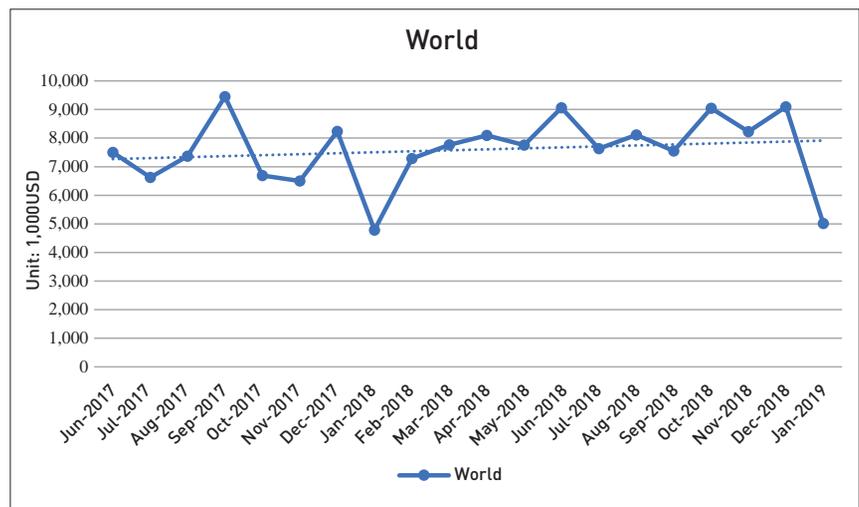

IMPORTER	World					Jun-2017
	Jul-2017	Aug-2017	Sep-2017	Oct-2017	Nov-2017	Dec-2017

	7,634	8,115	7,547	9,041	8,228	9,098
Jan-2019						5,017

Numbers are in thousand USD

The specific notes of the above graph are:

- 1- The trend of exported fasteners from Russia to the world is positive with a gentle slope.
- 2- All months show growth in comparison with the same corresponding months of the previous year, except for September 2018 showing negative growth.
- 3- January 2019 started with a 4.8% growth in comparison to that of January 2018.

In a simple world, the step-by-step investment in the Russian market makes sense for machine & tooling suppliers and investors.

The Main Markets for Russia's Fasteners:

It is predictable that in a country, if the power of export is weaker than the power of import, then the exported stuff of the country goes to its neighbouring countries. It happened to Russia, too; Kazakhstan, Belarus and Iran are the 1st, 2nd and 4th biggest destinations for Russia's exported fasteners. These 3 countries have bought more than 53% of Russia's exported fasteners. The 3rd biggest market for Russia's exported fasteners is Germany. All these 4 countries have shared 66% of Russia's total exported fastener value.

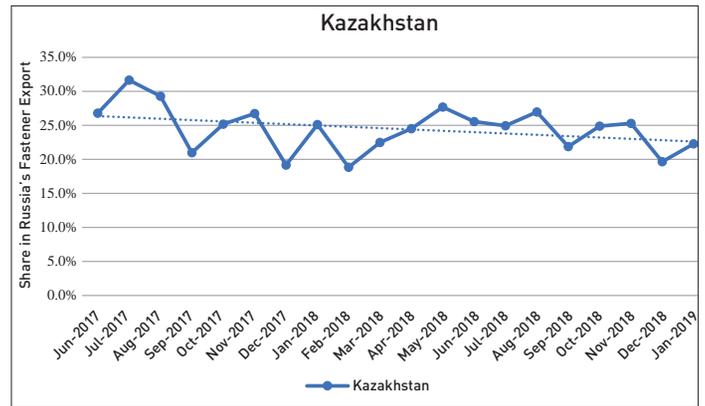

The detailed number of each country are shown as below:

1- Kazakhstan

The following table shows the value of fasteners imported from Russia and the right graph shows the market size of Kazakhstan for Russian fasteners.

The specific notes of the right graph are:

- 1- The same as the exported number, the trend of imported fasteners to Russia from the world is positive with a gentle slope.
- 2- All months show growth in comparison with the same corresponding months of the previous year.
- 3- January 2019 started with a 7.8% growth in comparison to that in January 2018.

In a simple world, the step-by-step investment in the Russian market makes sense for fastener producers.

The Main Suppliers in the Russian Market

China is the main supplier of fasteners to the Russian market; Russian consumers bought about 46.5% of fasteners.

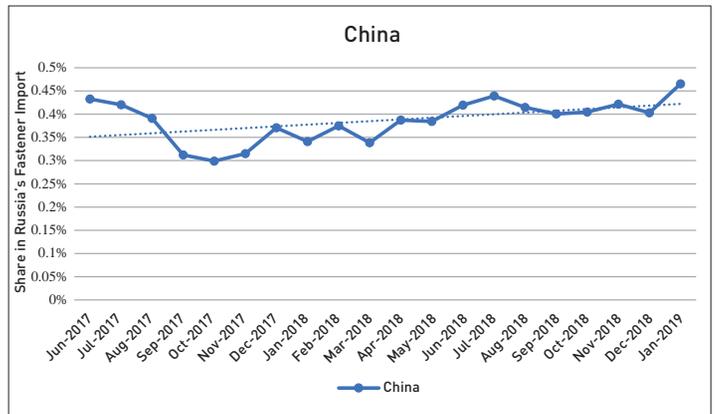

Germany has 7.3%, Taiwan has 5.4% and Japan has 5.1% of the market share in Russia.

The detailed numbers of each country are shown as below:

1- China

The following table shows the value of fastener exported from China and the right graph shows the market size of Russia for Chinese fasteners.
