New Surface Coating Factory Opened

As of 2022, JC Grand has opened and is currently operating a new, surface coating factory in Kaohsiung focused on the prevention of fastener corrosion in severe outdoor environments. This facility has two principal workflows and equipment: the base coating cold welds, diffuses and seals proprietary multi-metal powders onto the fastener substrate, and the other applies thermoset organic topcoats and friction modifiers on top of the base coat via automated dip-spin lines.

It dispatches more than 300 containers (4500+ tons) of fasteners every month to over forty countries and employ more than 300 sales and factory personnel. It is equipped to produce both standard and customized fasteners that meet all industrial requirements.
