YHF[®] FASTENERS

Wenzhou Yunhu Fastener Co., Ltd located in Wenzhou, one of the most developed coastal cities, is a research and development production and sales of fastener products manufacturers, has more than 20 years of stainless steel screw production experience. We are in line with the "Quality Line World Quality Concept" for the majority of customers to provide higher quality. Higher requirements of Fastener Products, for which the company is using first-class mechanical equipment. First-class mold matching.

Excellent technical management personnel, specializing in the production of stainless steel, stainless iron, nuts and screws. Standard parts. Executable: DIN.GB. JIS. ANSI. ISO. And non-standard customization. Products are widely used in auto parts, mechanical and electrical, building materials, new energy and other industries.

products have sold well at home and abroad, by the majority of customers praise. Future I plant: "Continue to adhere to quality as the fundamental customer-centric" for the majority of customers to provide better quality fastener products. All employees of the company welcome new and old customers!
